

Researchers at CU-Boulder invite young adults ages 18-30 who had cancer in childhood to participate in an interview study about their past and present thoughts and experiences in regards to becoming young adults. Interviews last for one hour.

Please email
Hillary.steinberg@colorado.edu or call
(720)432-5592 for more information. I am
a doctoral student at CU Boulder whose
father was a cancer patient and sister has a
chronic condition that affected her
throughout childhood.

**I look forward to hearing from you!
Please feel free to forward this
announcement to those who are
eligible and interested.**
